eStudent Information System**

**November 11, 2010, Skopje**

# FON University – Student services information system

## CURRENT SITUATION:

- Solution purchased from ULTRA in 2007
- Based on Oracle / Java
  - Adapted to our specifications  
(connection Student service – Financial dept.)
  - Permanently upgraded from 2008/09
  - Many items missing
  - Monthly maintenance fee

# FON University – Student services information system

## FUTURE PLAN – already started:

- To develop completely new solution
  - Built on Microsoft .NET platform
  - Paperless features for almost all processes
  - Already developed Business analysis for basic student services and financial dept.
  - Connection Student service – Financial dept. is solved

# FON University – Student services information system

## E-services of the new solution:

- Complete ECTS support
  - credits, supplement diploma, subject prerequisites etc.
  - Support for multi-modal ECTS
- Application for exam attendance based on all configured conditions (configurable)
- Billing of all charges via single point, in cooperation with a bank
- Customized HR system for academic staff
- Digital signature for all staff and students
- Student alumni with extranet for company partners
