

*iKnow*  
*Core Module and Functionalities*

# Presentation contents

---

- Document content (direct view in MS Word)
  - Overview of functionalities
  - Diagrams,
  - Data model
- Pending issues
  - ToDo
  - Integration of 4 documents
  - Overlapping functionalities among modules

# CMF Document contents (1)

---

- CORE MODULE AND FUNCTIONALITIES
  - (SCH) Module for study programs and schedules
  - (SAM) Student activities module
  - (ADM) Module for the administration
  - (ACR) Module for administration of academic results
- REFERENCED DOCUMENTS
- GENERAL OVERVIEW

# CMF Document contents (2)

---

- Reporting
- Users
- Functionalities
- Non functional requirements
- UML diagrams
  - Use case diagrams
  - Activity diagrams
  - Sequence diagrams

# CMF Document contents (3)

---

- USER INTERFACE
- DATA MODEL
- MASTER DATA
- BUSINESS RULES

# ToDo

---

- Introductory part from all universities
- Existing systems from all universities
- Missing UML diagrams and translation of existing
- UML diagram adaptations and modifications
- Referenced documents to be checked
- Master data from all modules

# Overlapping functionalities

---

- Financial module (where did we place it)
- Basic reporting (belongs here or no)
  - Issuing documents and certificates from templates
  - Spreadsheet reports
- Users management
  - Synchronization users among module documents
- Non functional requirements

# Discussion

---
